

# GRAPHIC VISIONS

## **GRAPHIC VISIONS TAKES GREAT PRIDE IN BRINGING YOUR SIGNAGE VISION TO REALITY**

We make banners, real estate signs, job site signs and other specialty signs. Whether it's as simple as a banner or an intricate neon and metal masterpiece, we treat each project as a piece of art not just a sign. We regularly work with a wide variety of substrates. Aluminum, brass, acrylic, foam, wood, neon, or any combination can be masterfully crafted into a piece of art. We pay special attention to the design, quality and finish of the sign. The end result is a sign of which you and Graphic Visions will be very proud; and a sign that will look great for many years to come.

### **DESIGN CAPABILITIES**

At Graphic Visions we have the ability to turn just about any art, of any condition, into camera-ready art. We have an in-house Graphic Designer who will work with you from beginning to end on your artwork to ensure you are happy with the end result. You may preview your design in its beginning or finished stage.

### **CONTACT US**

### **TECHNICAL INFORMATION**

We accept MAC and PC files. Acceptable formats for submitting art are as follows: Adobe Illustrator, Macromedia Freehand, Adobe® Photoshop® or Black ink on 8.5 x 11" white paper. Our Design Specialists can even work with ballpoint pen on a cocktail napkin, or a mental vision! If your design is a full color image (process color) the preferred format is Photoshop®. If your artwork is a spot color design or logo, it should be in a vector-based program such as Illustrator or Freehand.
